

Carpet Extractor

Eco Friendly Carpet Extraction Liquid

High wetting to penetrate soils
fast

Moderate foam to help
suspend dirt

Free rinsing

Low odour formulation

Introduction

Carpet Extractor is a concentrated mildly alkaline liquid detergent designed for hot and cold water extraction machines. High wetting surfactants allow fast penetration of soils and even wetting of fibres. Moderate foaming allows suspension of particulate matter and easier extraction from fibres. Safe on most fibres used in carpet manufacture.

Directions for use

Ensure your carpet is suitable for cleaning by water extraction systems. If unsure check with the manufacturer. Dilute Carpet extractor in the holding tank at the rate of 1: 100, making sure it is well mixed. Extract dirt and grime from carpet using the minimum amount of water. Allow carpet to dry before walking on it again. If possible open all windows and use a fan or other forced air system to speed up drying.

Safety

As this product is hazardous, it is recommended that gloves and safety glasses are worn when handling the concentrate.

Pack Size

3x5lt

Dilution Rate

1 : 100
