Introduction

Eco Truckwash is an Eco Friendly vehicle wash designed to reduce freight and storage problems while delivering excellent detergent action for washing of all types of vehicles. Eco Truckwash is environmentally acceptable being formulated from readily biodegradable materials and providing quick break technology to assist effective operation of waste treatment systems. Using Eco Truckwash will reduce transport costs dramatically and makes storing options more flexible, including reduced bunding.

Directions for use

Always wash vehicles out of direct sunlight. Rinse all solid material from surfaces using a pressure spray or hose. Dilute Eco Truckwash 1 part to 50 parts water. Apply by spray or sponge. Agitate using a circular motion then rinse off with a pressure washer.
