

Spray Cleaner

Parts Washer Detergent

Low foam

Low odour

Excellent cleaning

Short term corrosion
protection

Economical liquid formulation

Introduction

Spray Cleaner is a liquid alkaline low foam detergent for use in high pressure hot water parts washers. Provides excellent soil removal and short term corrosion protection.

Spray Cleaner is not classified as a dangerous chemical so can be stored and used without restrictions. It will effectively remove grease and soils from metal parts

Directions for use

Dilute 1 part to 20 parts water in the holding tank. Heat water to a minimum of 50 degrees C then operate as normal. Parts do not need to be rinsed after cleaning.

Safety

As this product is hazardous, it is recommended that gloves and safety glasses are worn when handling the concentrate.
