

## 2 Easy

### Stainless Steel Cleaner & Polisher

Food grade silicone emulsion

Heavy duty cleaning

Safe and non toxic for use in  
kitchens

Enhances the shine of stainless  
steel surfaces

Provides a soil barrier to  
reduce re-deposition of grease  
and oils.

#### Introduction

2 Easy is an easy to use wipe on formulation for heavy duty cleaning of stainless steel, brass, or gal surfaces. 2-Easy leaves a fine silicone film that enhances the shine of polished surfaces while providing a protective barrier against grease and oils sticking again.

Regular use of 2-Easy reduces the effort required to keep surfaces clean.

2-Easy is ideal for cleaning of kitchen range hoods and as a final treatment for all items fabricated from stainless steel.

#### Directions for use

For a general wipe over of surfaces – Use as supplied and apply with a soft clean cloth or through a hand atomising sprayer, Then wipe off with a clean cloth, For a glossy finish Polish lightly when finished with a clean cotton cloth. For heavy deposits allow 5 minutes for 2-Easy to penetrate before wiping off.

#### Safety

This product is not considered as hazardous, however it is recommended that care be taken to avoid release to the waterways
