

All Scale Gel

Viscous Acidic Rust & Scale Remover

Viscous liquid for better
contact time

Concentrated for better scale
removal

biodegradable formula

Does'nt produce irritating
fumes

Fast acting and easy to rinse off

Introduction

All Scale Gel is a thickened acidic detergent designed for use in hard water areas. All Scale Gel is ideal for treating vertical surfaces and areas that are difficult to clean by other means. The gel structure allows extended cling and contact time. Combining the cleaning effectiveness of All scale with the convenience of a viscous liquid, vertical surfaces and rough areas can be effectively treated without the need for extreme water pressure during cleaning. Simply apply using a low pressure sprayer (garden sprayer or similar) leave for a short time, then rinse off with moderate water pressure. Suitable for most surfaces including painted render.

Directions for use

Use as received. Spray a light coating onto the surface to be cleaned. Allow 5-10 minutes contact time, then rinse off with moderate (1000 PSI) water pressure.

On surfaces such as glass, metal, ceramic or laminex, agitation with a nylon scourer or similar will speed up the removal process. Gloves should always be worn for this process.

Safety

As this product is hazardous, it is recommended that gloves and safety glasses are worn when handling the concentrate.
