

Clean Shine

Furniture Polish

Easy to use fast applied formula

Leaves a smooth even shine

Excellent for car interiors

Introduction

Clean Shine is a silicon based furniture polish, it has been designed to keep various types of melamine, laminate or solid wood furniture looking great with that as new shine. Easy to use and fast drying, Clean Shine removes light soils from surfaces and leaves a durable silicone film

Directions for use

Use either as supplied, or dilute 1 part to 2 parts water for a more economical solution. Apply to the surface either directly using a trigger spray or preapply to a clean cloth. Rub in then wipe over with a clean cloth.
