effective waste treatment of
wash water

Introduction

Safe Wash is a concentrated alkali based detergent for use in automatic dish Washing machines. Safe Wash combines powerful detergents for removal of difficult residues such as lipstick and baked on protein, combined with anti-scaling agents and drying agents to leave surfaces clean and mark free. Safe Wash is not classified as a dangerous good, so can be handled, stored, and transported with less problems.

Directions for use

Safe Wash should be used as supplied connected through Safe Washing machine dispensing systems. Dosing rates should be between 0.5% and 1.0% v/v for best results.

Safety

As this product is hazardous, it is recommended that gloves and safety glasses are worn when handling the concentrate.
