

Boat Wash

General Purpose Marine Detergent

Purpose built for marine application

Organic formulation

Safe on all surfaces

Suitable for interior and exterior

Helps control corrosion

Introduction

Boat Wash is a high performance detergent based on organic ingredients and designed to work effectively in the presence of salt water. It will remove salt scales, dirt, grease and oil from most surfaces, and will assist in controlling corrosion of metal components. Because it is rapidly biodegradable, and does not produce high volumes of stable foam, it is safer to discharge to ocean than normal detergents

Directions for use

Dilute Boat Wash between 1 part to 20 and 1 part to 50 parts water. Apply by spray or swab techniques, then agitate with a brush or cloth. Leave to work for a few minutes then rinse off with fresh water.

As a spray and wipe for interior surfaces, dilute 1 part to 100 parts water.

Safety

This product is considered to be very safe for use, and of low impact to the environment

Pack Size

3x5lt 15lt

Dilution Rate

1: 20-50
