

## Pet Deodourizer

### Deodourizer for Pet Bedding and Surrounds

Powerful action

Safe around pets of all types

Easy to use

Long lasting

Pleasant after smell

#### Introduction

Pet Deodourizer is an organic formulation designed to remove unpleasant odours from areas and bedding used by various pets. Very safe around all pets, and effective at deodourizing, and controlling bacteria and mould commonly causing the odours.

Pet Deodourizer is ideal for use in animal shelters, kennels and for domestic applications.

#### Directions for use

Remove as much soil, dust and hair as possible before application. Dilute 1 part with 5 parts water then spray on, in, and under pet beds and surrounds. Allow to dry before reuse of the bedding.

For kennels and other enclosures, hose or wash out with water to remove gross soils, then apply Pet Deodourizer by spray, particularly in difficult to reach areas. Allow a few minutes to dry before reuse of the area.

#### Safety

This product is considered to be very safe for use, and of low impact to the environment
